We are a prominent Manufacturer, Exporter, Supplier, Trader and Service Provider of Hacksaw & Bandsaw Machine. These products are acknowledged for their longer functional life, high durability and corrosion resistance features.

## About Us

Established in the year **1984**, we “**Creative Engineers, Rajkot**” are a promising Manufacturer, Exporter, Supplier, Trader and Service Provider of Hacksaw & Bandsaw Machine. Our product range includes Hacksaw Machine, Bandsaw Machine and Giant Hydraulic Hacksaw Machine. These machines are fabricated by using optimum quality raw material and advanced machines. After sale services and on-site support are provided to the clients for easy installation and proper functioning of the machines. The range is widely appreciated and accepted for their features like high tensile strength, low maintenance cost, corrosion resistance, abrasion resistance, high durability and reliability. Owing to their superior quality and longer functional life, these machines are extensively used in diversified sectors including Engineering colleges, Defense department of India, IIT and many other related areas. We also possess various technologically advanced tools and machines including lathes big & small, planning, Radial Drill, boring, slotting, welding, straight edge granite plate and precision measuring instruments. The spacious infrastructure allows us smooth and organized functioning of all business related activities. Experienced logistics departments enable timely delivery of consignments to clients located across the globe. We offer different payment modes to the clients including payments on-line, cheque, cash and L/C. Depending upon the needs and...
